

Creating a wireless Guest Account on iOS

Wireless guest accounts

 You can use this option to request a temporary username and password from OIT that can then be used to join the *UCCS-Wireless* network. These temporary accounts are active for five days from the point in time they are created, and can be used to log in to the *UCCS-Wireless* network (which is *secure*) in order to gain Internet access. The username and password for these temporary accounts are delivered to the guest by email (also displayed on screen during time of registration), and can also be sent through a text message. Additionally, guests accounts can be obtained by visiting the Office of Information Technology Service Desk. For hours and location see the [Get Help](#) page.

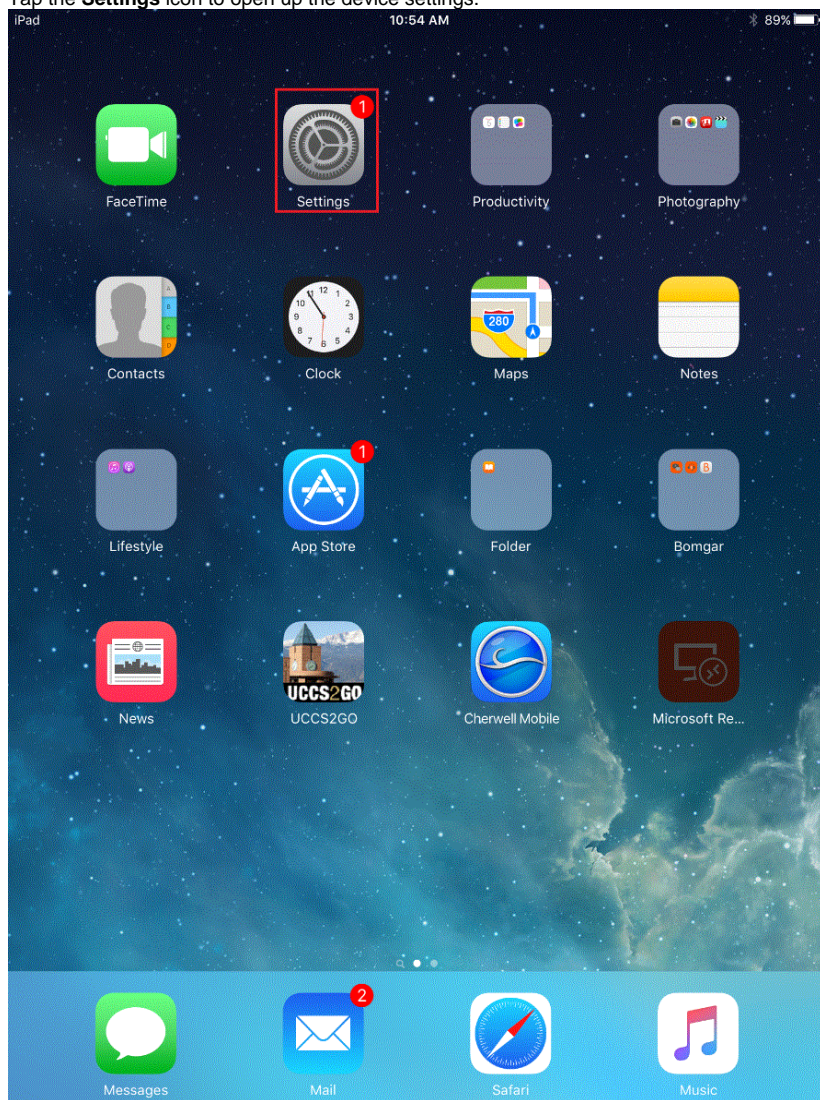

If you are on campus just temporarily and need basic web browsing access, you can simply use the [Single-Click Access](#) option that the *UCCS-Guest* network provides. This option requires no username and password - but note that this is unsecure and non-encrypted.

Steps:

- [Step 2: Tap Wi-Fi](#)
- [Step 3: Tap UCCS-Guest](#)
- [Step 4: Tap Create Guest Account](#)
- [Step 5: Complete form and Register](#)
- [Step 6: Take Note of Login Information](#)
- [Step 7: Go back to the WiFi settings](#)
- [Step 8: Tap UCCS-Wireless & Enter Guest Credentials](#)
- [Step 9: Trusting the Security Certificate](#)
- [Step 10: Tap Done](#)

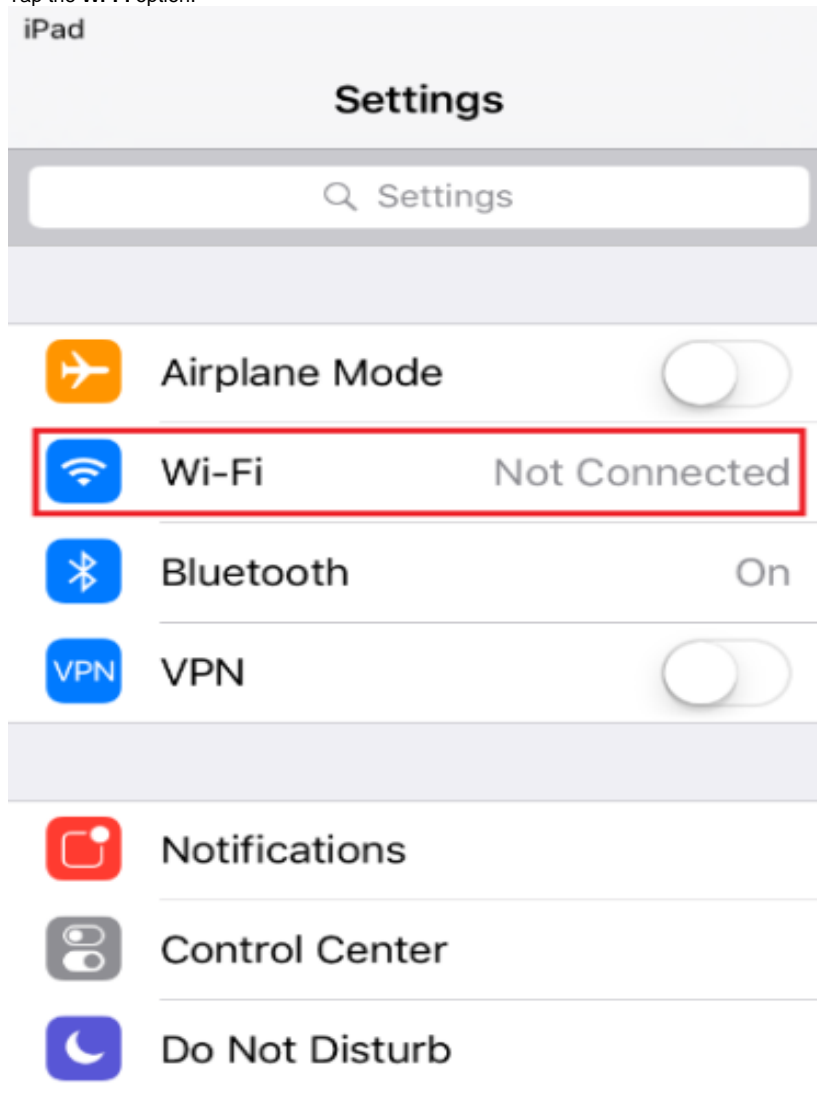

Step 1: Tap Settings

Tap the **Settings** icon to open up the device settings.

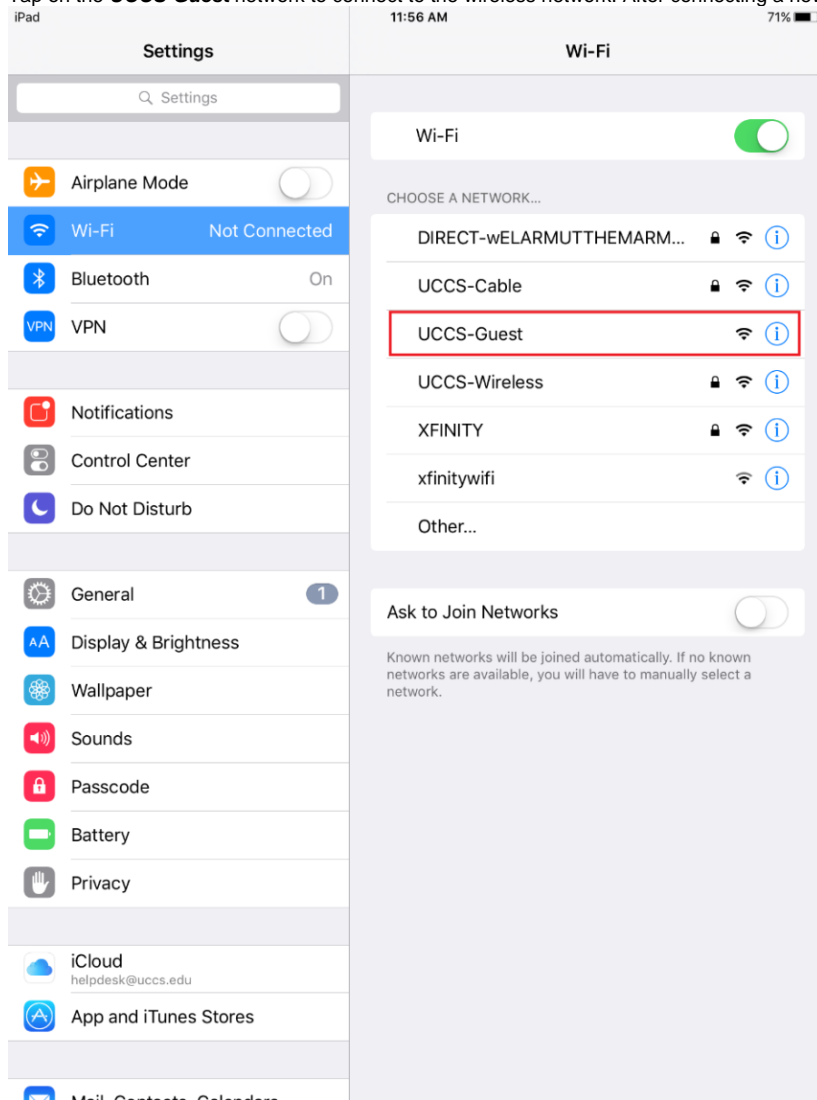

Step 2: Tap Wi-Fi

Tap the **Wi-Fi** option.

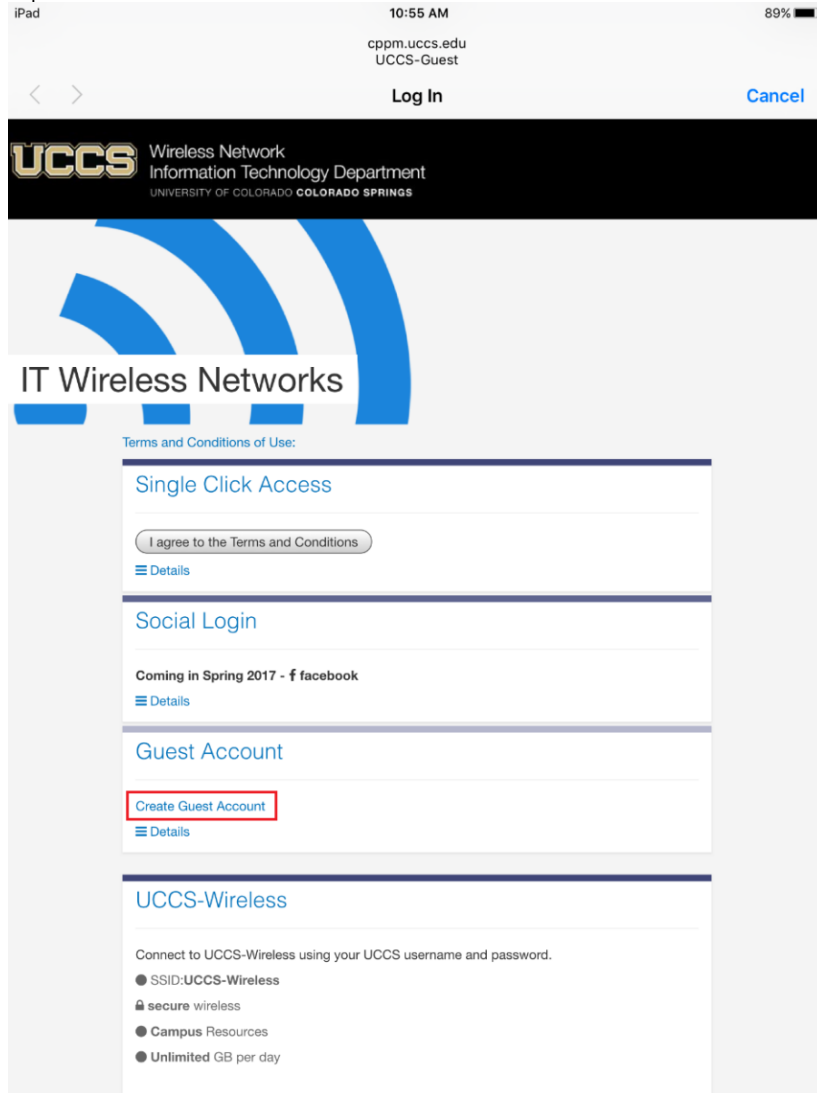

Step 3: Tap UCCS-Guest

Tap on the **UCCS-Guest** network to connect to the wireless network. After connecting a new page will open (if it does not, try to launch Safari).

Step 4: Tap Create Guest Account

Tap the **Create Guest Account** link under the Guest Account section.

Step 5: Complete form and Register

Complete the form and then press the **Register** button at the bottom of the page.

Step 6: Take Note of Login Information

Take note of your newly issued guest login credentials (username and password) so you can use them to log into the **UCCS-Wireless** network in the steps below.

IT Wireless Networks

The details for your guest account are shown below.

Save your username and password,
then connect to the **UCCS-Wireless** network for Internet access.

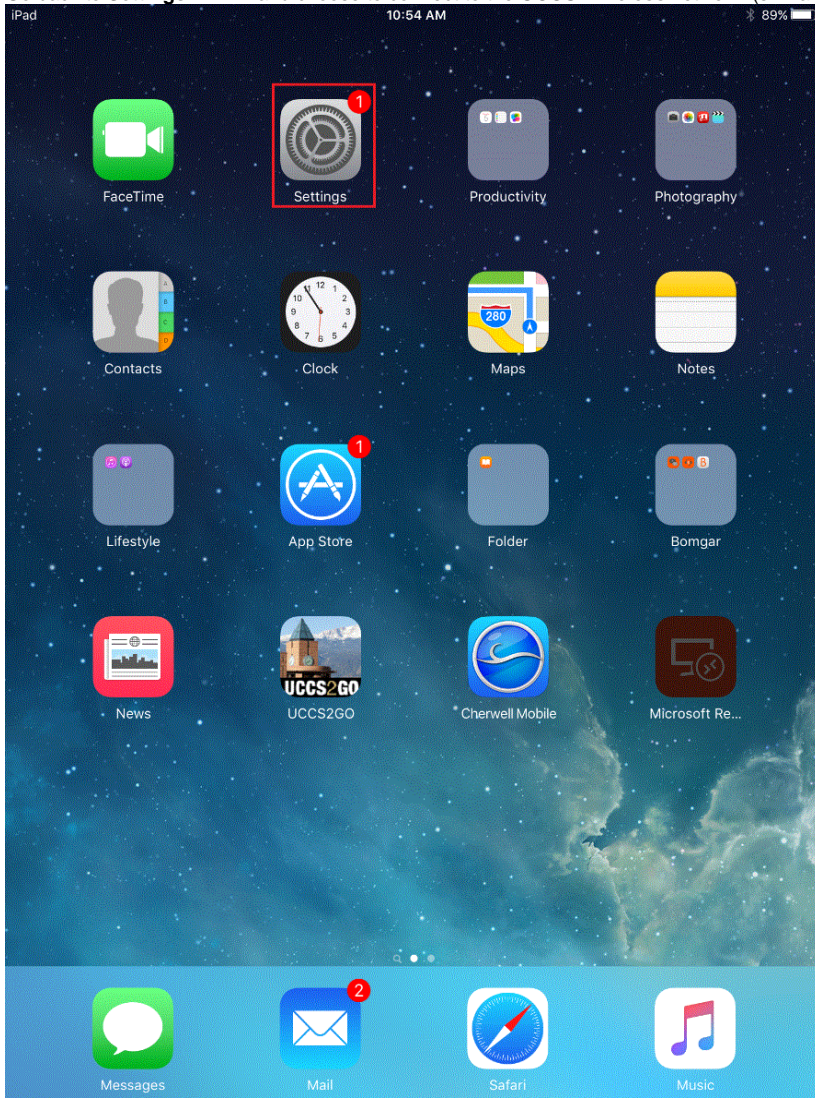

Visitor Registration Receipt

Guest's Name: [REDACTED]
Phone Number: [REDACTED]
Company Name: uccs
Account Username: [REDACTED]
Guest Password: [REDACTED]
Activation Time: Monday, 17 December 2018, 10:09 AM
Expiration Time: Saturday, 22 December 2018, 10:09 AM
 SMS receipt to: [REDACTED]

Text messaging rates may apply based on your plan with your mobile phone carrier.

Step 7: Go back to the WiFi settings

Go back to **Settings** **Wi-Fi** and choose to connect to the **UCCS-Wireless** network. (similar to steps 1 and steps 2 above)

 Do Not Disturb

Step 8: Tap UCCS-Wireless & Enter Guest Credentials

Tap on **UCCS-Wireless** and then enter the guest username and password you obtained from the registration steps above.

Step 9: Trusting the Security Certificate

You should see a screen similar to the following asking you to verify and accept the server's security certificate. The server *cppm.uccs.edu* is the server you are authenticated against.

To be safe you should always validate the certificate you are about to trust. To validate and see more information about the certificate, click **More Details**.

More Details

After clicking **More details** scroll down to the bottom and you should see the fingerprints...

Your certificate fingerprints displayed on your screen should match the fingerprints listed below...

Wireless Authentication Server Certificate Fingerprints (SHA-256 and SHA-1)

SHA-256: 6B A9 C8 29 D3 C4 3A E2 ED BE 88 29 9E F9 4C 46 4F 10 5D 12 E0 C0 6F E2 CD 07 6D D7 A8 54 8F DA

SHA-1: 36 88 97 DB 04 13 80 CE 84 1E BB 22 20 56 68 BF 92 F4 78 B4

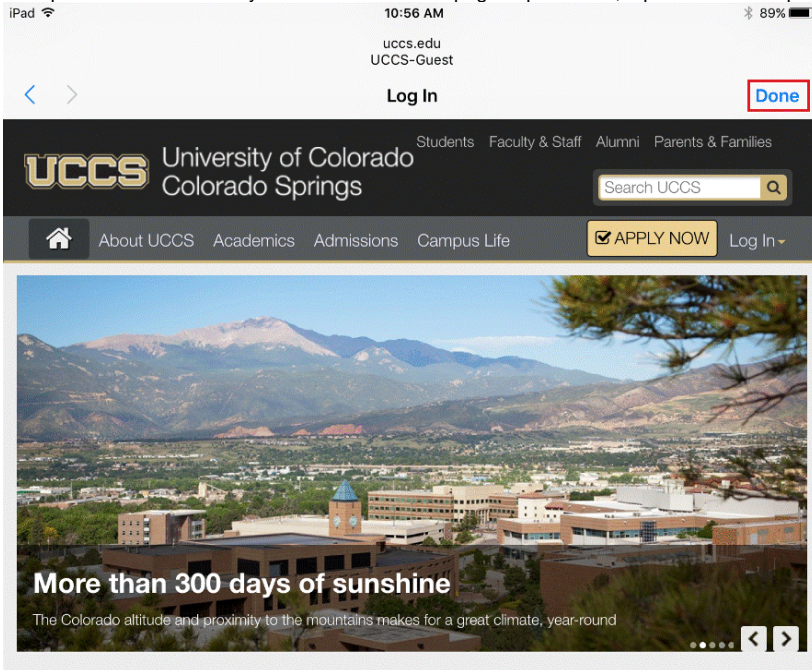

If the fingerprints do not match, DO NOT trust the certificate! Click CANCEL and contact the [OIT Service Desk](#).

If your certificate fingerprints match those listed above, you can trust the certificate is valid. Go ahead and click **Continue**.

NOTE If the fingerprint do not match, DO NOT trust the certificate! Click **CANCEL** and contact the [OIT Helpdesk](#) for assistance.

Step 10: Tap Done

Your phone should redirect you to the **UCCS** homepage. If presented, tap **Done** in the top right corner to close this window.

REACH HIGHER. CHALLENGE YOURSELF. SUCCEED.

At the University of Colorado Colorado Springs we challenge you to reach higher in a supportive and collaborative learning and research environment where you interact, aspire and engage. Our committed faculty and staff provide you the support you need to acquire the knowledge and skills necessary to succeed in college and in life.
