

Creating a wireless Guest Account on Windows 11

Wireless guest accounts

 You can use this option to request a temporary username and password from OIT that can then be used to join the *UCCS-Wireless* network. These temporary accounts are active for five days from the point in time they are created, and can be used to log in to the *UCCS-Wireless* network (which is *secure*) in order to gain Internet access. The username and password for these temporary accounts are delivered to the guest by email (also displayed on screen during time of registration), and can also be sent through a text message. Additionally, guests accounts can be obtained by visiting the Office of Information Technology Service Desk. For hours and location see the [Get Help](#) page.

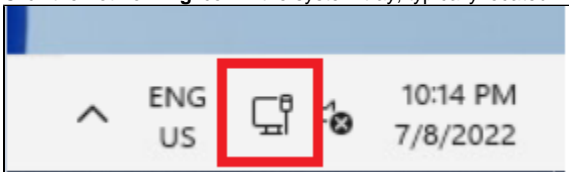

If you are on campus just temporarily and need basic web browsing access, you can simply use the [Single-Click Access](#) option that the *UCCS-Guest* network provides. This option requires no username and password - but note that this is unsecure and non-encrypted.

Steps:

- [Step 1: Open Network Connections](#)
- [Step 2: Select the UCCS-Guest wireless network](#)
- [Step 3: Click Create Guest Account](#)
- [Step 4: Fill out the form and click Register](#)
- [Step 5: Take note of your Guest Account information](#)
- [Step 6: Open Network Connections and select the UCCS-Wireless wireless network.](#)
- [Step 7: Enter Guest Account Username/Password and Click Ok](#)
- [Step 8: Verify Security Certificate - part A](#)
- [Step 9: Verify Security Certificate - part B](#)
- [Step 10: Confirm connection](#)

Step 1: Open Network Connections

Click the **networking** icon in the system tray, typically located in the lower right side of the screen.

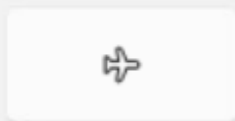

Step 2: Select the *UCCS-Guest* wireless network

Click the right-arrow to open the list of wireless networks, and choose the *UCCS-Guest* network, then click **Connect**.

Note - if you want the computer to remember and save this network so it will automatically connect when in range, check the *Connect automatically* box.

Step 3: Click **Create Guest Account**

A browser window should automatically open once connected to UCCS-Guest. If not, launch a web browser manually.

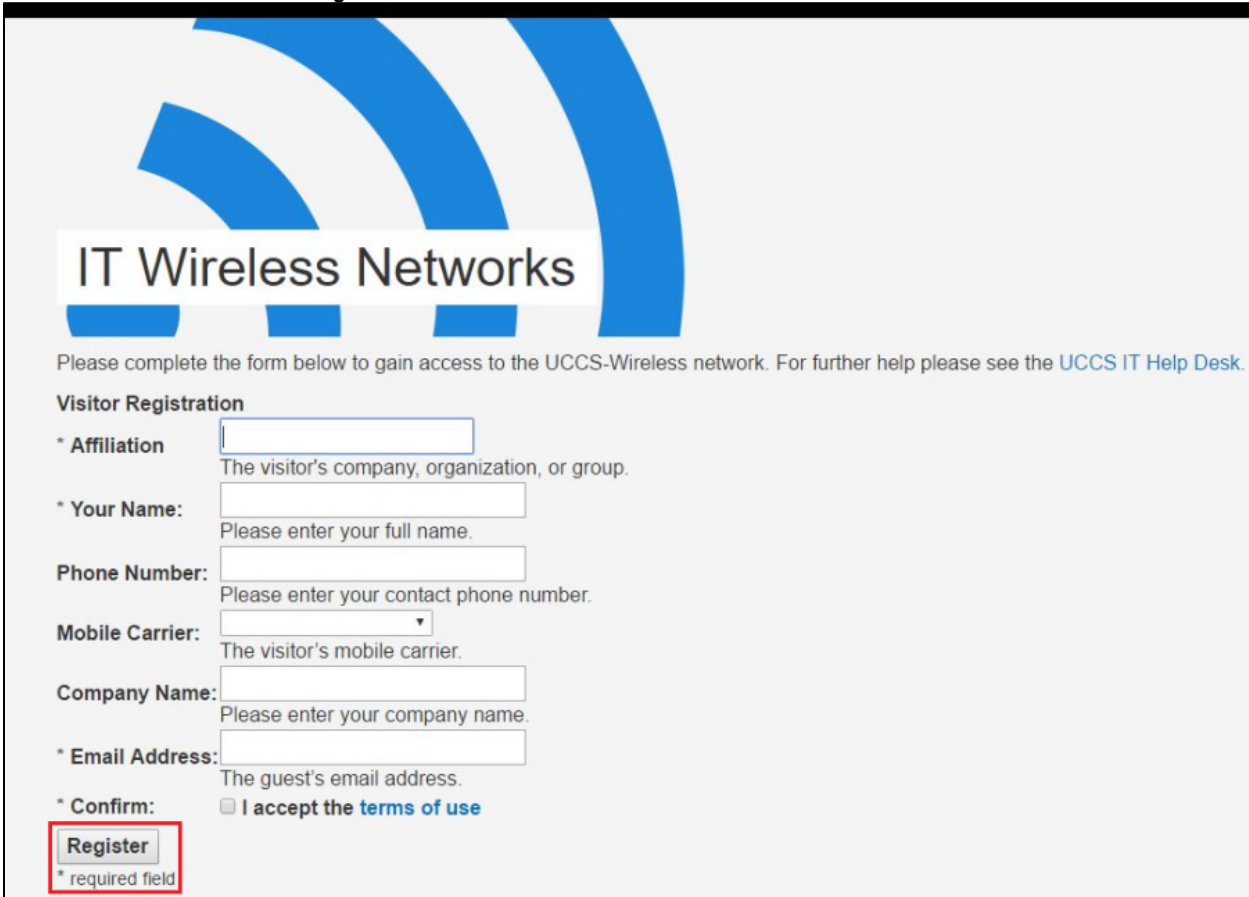

You should be redirected to a captive portal. Under the "Guest Account" section click the **Create Guest Account** link.

The screenshot shows a captive portal for "IT Wireless Networks". At the top left, there is a blue Wi-Fi signal icon. Below it, the text "IT Wireless Networks" is displayed. Underneath, there is a link for "Terms and Conditions of Use:". The main content is organized into six columns:

- Single Click Access:** Contains a button labeled "I agree to the Terms and Conditions" and a "Details" link.
- Social Login:** Features the text "Coming in Spring 2017 - f facebook" and a "Details" link.
- Guest Account:** Contains a red-bordered button labeled "Create Guest Account" and a "Details" link.
- UCCS-Wireless:** Includes the instruction "Connect to UCCS-Wireless using your UCCS username and password." and a list of features: "SSID: UCCS-Wireless", "secure wireless", "Campus Resources", and "Unlimited GB per day".
- eduroam:** Features the text "Coming in Spring 2017 - Use a University account from a participating campus." and a list of features: "SSID: eduroam", "secure wireless", "Internet Access", and "Unlimited GB per day".
- Help and FAQs:** Provides "Documentation for connecting and additional information." and lists links: "Getting Connected", "NAC Requirements", "Other Devices - Coming in Spring 2017", "Get help from IT Help Desk", and "IT Dept. Website".

Step 4: Fill out the form and click **Register**

Fill out the form and then click the **Register** button at the bottom.

The image shows a registration form for 'IT Wireless Networks'. At the top, there is a blue Wi-Fi symbol. Below it, the text 'IT Wireless Networks' is displayed in a white box. A line of text reads: 'Please complete the form below to gain access to the UCCS-Wireless network. For further help please see the [UCCS IT Help Desk](#).' The form is titled 'Visitor Registration' and contains several fields: '* Affiliation' (text input), '* Your Name:' (text input), 'Phone Number:' (text input), 'Mobile Carrier:' (dropdown menu), 'Company Name:' (text input), and '* Email Address:' (text input). Below these fields is a 'Confirm:' section with a checkbox and the text 'I accept the terms of use'. At the bottom left, there is a 'Register' button highlighted with a red box. Below the button, the text '* required field' is visible.

IT Wireless Networks

Please complete the form below to gain access to the UCCS-Wireless network. For further help please see the [UCCS IT Help Desk](#).

Visitor Registration

* **Affiliation**
The visitor's company, organization, or group.

* **Your Name:**
Please enter your full name.

Phone Number:
Please enter your contact phone number.

Mobile Carrier:
The visitor's mobile carrier.

Company Name:
Please enter your company name.

* **Email Address:**
The guest's email address.

* **Confirm:** I accept the [terms of use](#)

Register

* required field

Step 5: Take note of your Guest Account information

Take note of your newly issued guest login credentials (username and password) displayed on screen so you can use them to log into the **UCCS-Wireless** network in the steps below.

You should also receive an email receipt with your username and password. If you entered your phone number and carrier, you should also receive a text message with the information.

IT Wireless

The details for your guest account are shown below.

Save your username and password, then connect to the **UCCS-Wireless** network for Internet access.

Visitor Registration Receipt

Guest's Name:

Phone Number:

Company Name:

Account Username: g-s1077

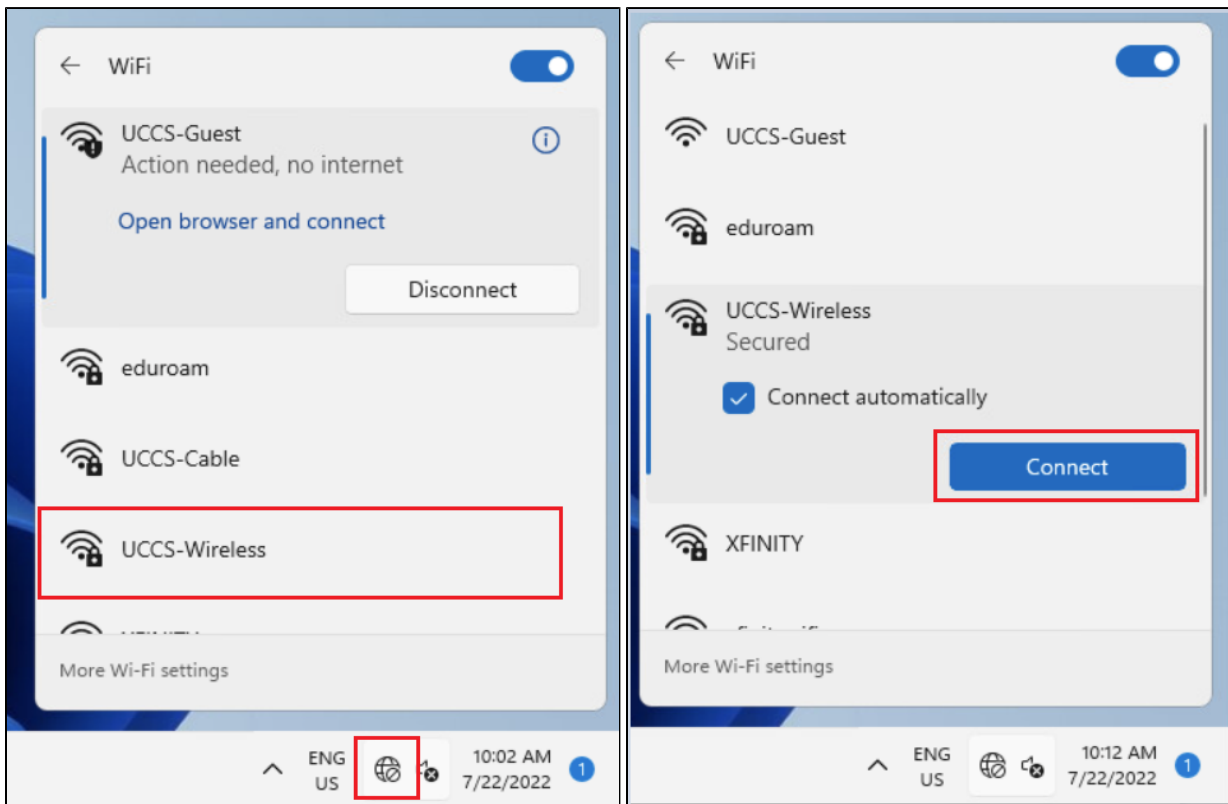

Guest Password: 901548

Activation Time: Friday, 22 July 2022, 10:00 AM

Expiration Time: Wednesday, 27 July 2022, 10:00 AM

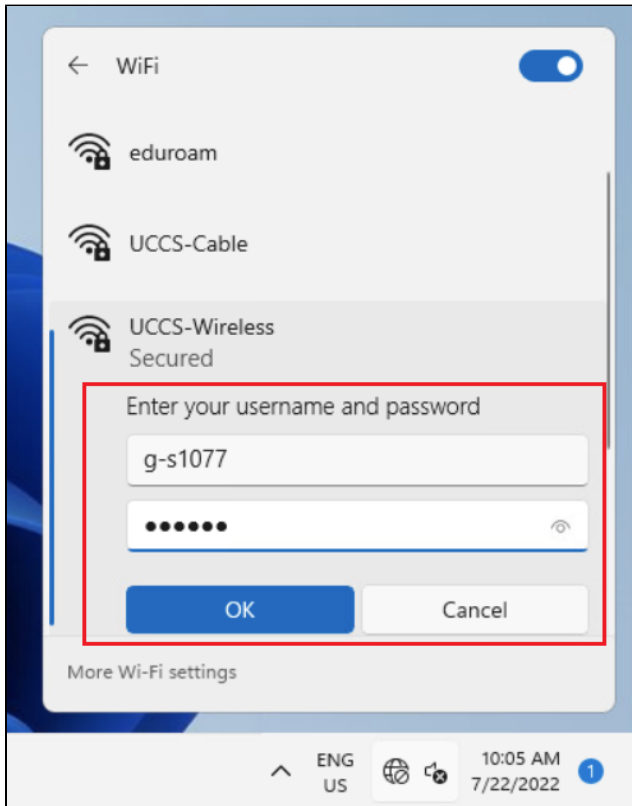

Step 6: Open Network Connections and select the **UCCS-Wireless** wireless network.

Click on the network icon again in the bottom right corner. Then select **UCCS-Wireless** from the list and click **connect**.

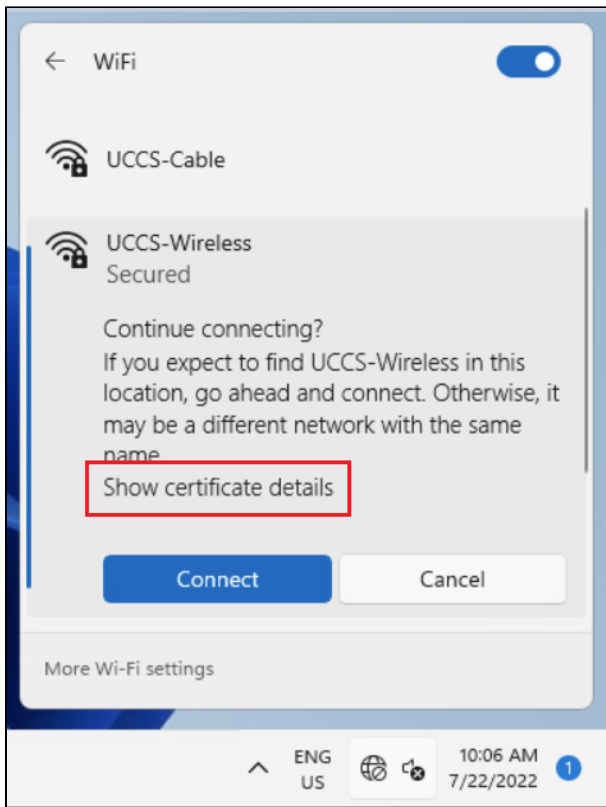

Step 7: Enter Guest Account Username/Password and Click Ok

Enter your guest username and password you obtained from the registration steps above and click **OK**.

Step 8: Verify Security Certificate - part A

To validate and see more information about the certificate, click **Show Certificate Details**.

Step 9: Verify Security Certificate - part B

The server certificate thumbprint should be displayed. It should match the SHA-1 fingerprint listed below.

If the fingerprint matches, go ahead and click **Connect**.

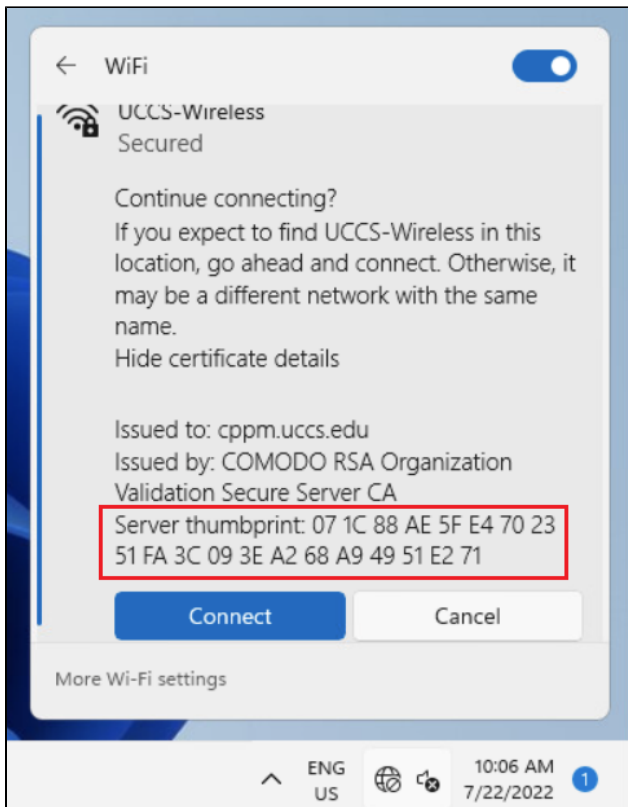

NOTE If the fingerprint does not match, DO NOT trust the certificate! Click **Cancel** and contact the [OIT Service Desk](#) for assistance.

CPPM Certificate Fingerprint (SHA-1)

SHA-1: 36 88 97 DB 04 13 80 CE 84 1E BB 22 20 56 68 BF 92 F4 78 B4

If the fingerprint does not match, DO NOT trust the certificate! Click **CANCEL** and contact the [OIT Service Desk](#).

Step 10: Confirm connection

Your device should now be connected to **UCCS-Wireless**.

Still having problems? Please contact the [OIT Service Desk](#).
